COMMITMENT TO OUR SPONSORS

We are deeply grateful for our partnerships with corporate and individual donors. StolenYouth is committed to serving as good stewards of your generous investment and ensure that it is a mutually beneficial partnership. Whether you are a returning sponsor or a first-time partner, we value your commitment and support.

StolenYouth's annual Not On Our Watch Luncheon is one of Seattle's most inspiring and successful fundraisers. This one-hour event is geared toward educating the community about child sex trafficking locally and galvanizing them to stand up and say, "Not on our watch, and not in our state." Since its inception 12 years ago, StolenYouth has raised nearly \$10 million to fight the sexual exploitation of children and youth.

Our mission is to end child sex trafficking in Washington state. Our coalition model unites direct services, policy development, advocacy, education, and community awareness initiatives to disrupt the entire system of exploitation. By funneling funding into direct service non-profits, we ensure that the most critical needs are being met. From prevention and demand reduction to survivor support services, each non-profit we fund targets a different, but vital aspect of combating child sex trafficking.

No child should be bought or sold for sex and every victim of exploitation deserves compassion, access to services, and a way out when they wish to leave "the life."

THE PROBLEM

More than 600 youth are trafficked in Washington annually, and many more are at risk of being groomed online every day. Sexual exploitation of children is at an all-time high in this post-pandemic, digital era, and the problem is only growing; but, so is our fortitude in the fight.

As we continue to expand, we evolve our approach to prevent trafficking before it happens, stopping it before it begins. We connect vulnerable youth and victims to needed resources on the ground and empower survivors to lead positive, productive lives.

No child should be bought or sold for sex. Help us prevent the commercial sexual exploitation of children and better the chances for the future of our community's most vulnerable youth.
